MANAGEMENT DISCUSSION & ANALYSIS REPORT

INDUSTRY OPERATIONS:

(a) Treasury Operations & Fund Based Activities

The Company in its treasury division is carrying activities relating to placement of funds with other Bodies Corporate by way of Inter Corporate Deposits/ Bill Discounting Facilities. During the year under review, Treasury operation of the Company remains non functional.

(b) Investment Activities

During the year under review, the company explored and made investment in new investment opportunities from which the company is expecting good return in future. Investment activities of the company remained functional.

(c) Non Banking Financial Companies (NBFC) Activities

Company is Non - Banking Financial Company.

INDUSTRY STRUCTURE – AN OUTLOOK:

The Non-Banking Financial Companies (NBFCs) section in India has undergone remarkable growth, establishing itself as a significant player within the country's financial landscape. Also, the space as a whole, has witnessed notable transformations ever since its emergence, with segments such as housing finance, microfinance and consumer finance contributing its expansion. This growth is driven by various factors, such as a rising middle class, enhanced financial inclusions and positive policy interventions.

India's Non-Banking Financial Companies have emerged as a core pillar of the rapidly expanding financial services to ecosystem in India, playing a crucial role in credit inclusion, investment activities and catering to diverse financial needs. As the industry expands, its needs to align with the dynamic landscape comprising evolving regulations, emerging technological advancements, and changing consumer demands.

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The financial sector in India had an overall growth of 15%, which has exhibited stability over the last few year although several other markets across the Asian region were going through a turmoil. The development of the system pertaining to the financial sector was the key to the growth of the same. The recoup of contact-intensive services and rising discretionary spending is leading private consumption to regain its momentum. Because of the monsoon forecast, the agricultural prospects are brighter too. Along with this, even the investment cycle show signs of revival. However, challenges in the form of geo political tensions, elevated commodity prices and slowing external demand may remain as a barrier towards sustained and inclusive growth of the economy.

Non-banking financial companies form an integral part of the Indian system. The NBFC's sector is divided into equipment leasing/ hire purchase finance, loan and investments. NBFC's always played an important role in promoting financial inclusion in India, these companies are deeply interconnected with entities in financial sectors. They have been complementing and supplementing the banking sector in reaching out credit to the Un-banked segments of the society. The biggest contribution of NBFC's is their ability to cater to the needs of the MSME's which form the cradle of Entrepreneurship and innovation in India.

The company would try to look for more opportunities in NBFC activities. With the formation of stable Government in India, Stock Market is showing bullish trend which may continue FY 2023-2024. In this scenario, it is strategically advantageous to identify prospective unlisted companies having good growth opportunities and intending to bring Public Issue in near future, the company would make strategic investment in such companies to earn good return on investment in medium term.

Looking at growth opportunities in the financial sector, the management has proposed to shareholders to increase the borrowing powers to expand investments.

DIGITALISATION IN NBFC SECTOR:

With the increased widespread of internet access, NBFCs are offering faster, convenient and easily accessible financial services. These digital platforms provide seamless loan applications, faster processing, and personalized financial investments products, catering to the requirements of consumers.

NBFCs are at the forefront of adopting emerging technologies like Artificial Intelligence (AI) and Machine Learning (ML) for automated credit scoring, fraud detections, and personalized recommendations.

ECONOMIC GROWTH DATA OVERVIEW:

India is poised to lead the global economy once again, with the International Monetary Fund (IMF) projecting it to remain the fastest growing major economy over the next two years.

According to the April 2025 edition of the IMF's World Economic Outlook, India's economy is expected to grow by 6.2 per cent in 2025 and 6.3 per cent in 2026, maintaining a solid lead over global and regional peers.

The Credit growth of the Non Banking Financial Companies (NBFC's) is expected to ease to 13-15 per cent in FY 2025 and FY 2026 from the 17 per cent in the previous two fiscals.

Overall NBFC credit stood at about Rs. 52 trillion in December 2024, and it is set to exceed Rs. 60 trillion by FY 2026. The retail assets, which accounted for 58 per cent of the overall NBFC credit in December 2024, have been the key growth drivers, while other wholesale and infrastructure credit expanded at a stable rate of 10-12 per cent during FY 2023 – FY 2025.

The rating agencies expects retail assets to growth at a relatively slower 16-18 per cent CAGR during FY 2025 and FY 2026.

Asset segments like microfinance, personal loans, credit cards and unsecured business loans are witnessing higher stress in FY2025, leading to elevated delinquencies and write-offs. Unsecured business loans account for nearly 28 per cent of retail NBFC credit in December 2024.

CHALLENGES FOR INDIAN FINANCE INDUSTRY:

There are challenges facing the finance industry that we regularly hear about from firms and the globe i.e. Operational Risk Management, Quality Data for Better Investment Decisions, Data Integration, Reporting driven by regulatory augmentation, Data Quality at Granular Levels for Accurate Aggregation Scale/ Expansion, Living with Spread Sheets and Data Governance Framework. Such Challenges can be:-

- a. Increase in competition from existing players and potential new entrants.
- b. Adapting to evolving regulations and ensuring compliance with data privacy and consumer protection guidelines.
- c. Mitigating cyber security risks associated with increased reliance on technology.

OPPORTUNITIES:

These NBFCs have also been key in being able to mitigate and manage the spread of risks during times of financial distress and have increasingly become recognized as complementary services to banks. On going stress in public sector banks (PSUs) because of increase bad debt, lending in rural areas deterioration has provided NBFCs with the opportunity to increase presence. The success of these NBFCs vs. PSUs can be attributed to product line, lower cost, wider and effective reach, strong risk management capabilities to check and control bad debts, and a better understanding of customer segments versus banks.

The Reserve Bank of India (RBI) is actively shaping the NBFC Sector through regulations focused on transparency, governance, and consumer protection. NBFCs will need to adopt these evolving guidelines to ensure responsible practices and maintain regulatory compliances.

Strategic partnerships with traditional banks can unlock new growth opportunities for NBFCs, These collaborations can leverage the strengths of both, with banks offering their extensive infrastructures and NBFCs specialization in niche areas.

DETAILS OF SIGNIFICANT CHANGES:

There is no significant change vis-a-vis the previous financial year

INTERNAL CONTROL SYSTEMS AND ADEQUACY OF INTERNAL CONTROL:

Independent Auditors' Report

**To
The Members of
Morgan Ventures Limited
Report on the Audit of the IndAS Standalone Financial Statements**

Opinion

We have audited the accompanying Ind AS Financial Statements of M/s Morgan Ventures Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025; and profits and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (Sas) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. We draw attention to Note 48 of the accompanying financial statements, which involves legal matter on land held as Fixed Assets by the Company. As disclosed in the note, the Maharashtra Industrial Development Corporation (MIDC), a Government of Maharashtra Undertaking, has issued a notice dated August 31, 2024, revoking the lease rights originally granted under a lease agreement dated July 15, 1980. The said notice pertains to land plots E-18, E-19, E-29, and E-30 located in the Chikalthana Industrial Area, Maharashtra, aggregating to approximately 76,483 square meters.

The Company has filed a writ petition before the Hon'ble Bombay High Court, Aurangabad Bench, challenging the said revocation and seeking to restrain MIDC from taking physical possession. The Court has, as of the date of this report, permitted MIDC to take only symbolic possession of the said plots, with physical possession remaining with the Company until the final order is passed.

The said land is recorded in the Company's books as Fixed Assets and valued at ₹20.02 crore as at the balance sheet date. Management has represented that, in their view, the carrying value of the land does not require any adjustment at this stage, based on the interim relief granted by the Court. However, the ultimate outcome of the matter is presently uncertain and dependent on the final adjudication by the Court. Based on legal assessment, the management is confident of favourable outcome of aforesaid matter and accordingly no adjustments have been made to the accompanying standalone financial results.

2. We draw attention to Note 30 of the financial statements, which describes that the Company has entered into a transaction involving a business advance with a related party which had already been fully repaid by the Company in the financial year, being an entity under significant influence of a Key Managerial Personnel, which exceeds 10% of the annual consolidated turnover of the Company as per the last audited financial statements. As per Regulation 23(4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, such a transaction is considered material and required prior approval of the shareholders through a resolution and no such approval had been obtained by the company as of the financial year.

3. We draw attention to Note 49 to the financial statements, which describes that the Company, being a Non-Banking Financial Company (NBFC) and listed entity, has amended its Main Object Clause in the Memorandum of Association to include two new objectives relating to manufacturing activities. This change was approved by the Board of Directors at their meeting held on August 22, 2024, by the members of the Company through a Special Resolution passed at the 37th Annual General Meeting held on September 20, 2024, and subsequently registered by the Registrar of Companies through a Certificate of Registration of the Special Resolution dated October 25, 2024. Management is of the view that as company has not started any business activity from new object and hence RBI approval is not required.

4. We draw attention to Note 22 of the financial statements, which describes the change in classification of certain inventory to leasehold land under fixed assets by the Company during the year. This reclassification has been made to more appropriately reflect the nature and intended use of the assets in accordance with applicable accounting standards. Our opinion is not modified in respect of this matter.

Our opinion is not modified in respect of these matters.

Key Audit Matters

We have determined that the matter described below to be the key audit matter to be communicated in our audit report.

Fair Valuation of Investments

As at March 31, 2025, the company has investments of Equity Instruments & Alternate Investment Fund amounting to Rs. 254,48,44.91/-thousand and at Cost Price (Rs. 198,55,23.32/-) thousand which are measured at Fair value as per Ind AS 109 read with Ind AS 113.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises of the information included in the Board's Report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Financial Statements

The Company's Board of Directors is responsible for the matters in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position and financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a

basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters Specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.

Annexure - B to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements section of our report to the Members of Morgan Ventures Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/s Morgan Ventures Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and **efficient**

conduct of its business, including adherence to company's policies, the safeguarding of its detection of frauds and errors the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act,2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and the operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance e regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements. Inherent Limitations of Internal Financial Controls Over Financial Reporting Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31,2025 except in respect of controls relating to related party transactions undertaken by the Company during the year, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(ii) Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurements as a whole.

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: valuation techniques for which the lowest level inputs that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: valuation techniques for which the lowest level input which has a significant effect on fair value measurement is not based on observable market data.

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities, other than those whose fair values are close approximations of their carrying values.

Financial assets and liabilities measured at fair value - recurring fair value measurements for which fair values are disclosed At 31 March 2025:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets					
Investments	31-03-2025	2,548,449.10	2,548,449.10	-	-

There have been no transfers between Level 1 and Level 2 during the period.

			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets					
Security deposits paid	31-03-2025	35.83	-	-	35.83

There have been no transfers between Level 1 and Level 2 during the period.

Assets and liabilities which are measured at amortised cost for which fair values are disclosed At 31 March 2024:

Particulars	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets					
Security deposits paid	31-03-2024	35.83	-	-	35.83

There has been no transfers between Level 1 and Level 2 during the period.

Valuation technique used to determine fair value:

- (i) For cash and cash equivalents, trade receivables and other financial assets, borrowings, trade payables and other financial liabilities the management assessed that they approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (ii) The fair values of the company's investments in quoted equity and debt instruments has been determined by multiplying the number of shares/ debentures held at the year end to the closing market value on recognised stock exchange.
- (iii) The fair value of security deposits is determined using discounted cash flow analysis.

34. Financial risk management objectives and policies

The Company's principal financial liabilities, comprise borrowings, trade payables, and creditors for expenses. The Company's principal financial assets include investments, trade receivables, cash and short-term deposits that derive directly from its operations. The company also holds FVTPL investments in quoted equity and debt instruments. The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by the Board of Directors that advises on financial risks and the appropriate financial risk governance framework for the Company. The board provides assurance to the Company's management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The management reviews and agrees policies for managing each of these risks, which are summarised below.

I. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include, deposits and FVTPL investments.

The sensitivity analyses of the above mentioned risk in the following sections relate to the position as At 31 March 2024 and 31 March 2025. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held At 31 March 2025 and 31 March 2024.

A. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

	Increase/ decrease in basis points	Effect on profit before tax
31/03/2025		(Rs. Lakhs)
INR	+50	
INR	-50	(8,555.19)
		8,555.19
31/03/2024		
INR	+50	(6,376.61)
INR	-50	6,376.61

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

B. Foreign currency sensitivity

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The company's exposure to the risk of changes in foreign exchange rates relates primarily to the company's operating activities (when revenue or expense is denominated in a foreign currency). Foreign currency risk sensitivity is the impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities. The company's exposure to foreign currency changes is not material.

II. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions.

Credit risk from investments with banks and other financial institutions is managed by the Treasury functions in accordance with the management policies. Investments of surplus funds are only made with approved counterparties who meet the appropriate rating and/or other criteria, and are only made within approved limits. The management continually re-assess the Company's policy and update as required. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty failure.

The maximum credit risk exposure relating to financial assets is represented by the carrying value as at the Balance Sheet date.

A. Trade and other receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit review and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. At the year end the Company does not have any significant concentrations of bad debt risk other than disclosed in Note 4.

An impairment analysis is performed at each reporting date on an individual basis for major clients. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 33. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets.

B. Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties.

III. Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Particulars	Less than 3 months	3 to 12 months	1 to 5 years	> 5 years	Total
Year ended As at 31 March 2025					
Borrowings	-	1,711,037.79	-	-	1,711,037.79
Trade payables	27,062.72	-	-	-	27,062.72
	27,062.72	1,711,037.79	-	-	1,738,100.51

	10,070.21	15,63,024.62	-	-	1,569,903.39

IV. Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. The company is an Investment Company i.e. a financial institution

carrying on as its principal business the acquisition of securities and the management have assessed risk concentration as medium for the year 2024-25 due to 36% concentration of its assets in investment in IIFL Special Opportunities Fund - Series 8 - Class A6 (AIF Category II).

36. Capital Management

The objective of the Company's capital management structure is to ensure that there remains sufficient liquidity within the Company to carry out committed work programme requirements. The Company monitors the long term cash flow requirements of the business in order to assess the requirement for changes to the capital structure to meet that objective and to maintain flexibility.

The Company manages its capital structure and makes adjustments to it, in light of changes to economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital, issue new shares for cash, repay debt, put in place new debt facilities or undertake other such restructuring activities as appropriate. No changes were made in the objectives, policies or processes during the year ended 31 March 2025.

48. There is one ongoing litigation continuing in the Bombay High Court w.r.t. WRIT filed by the Company against the cancellation of Leasehold rights of the company by MIDC on the land parcel situated at Plot no E-18 , 19, 29, and 30 in the Chikalhana Industrial Area, Aurangabad, Maharashtra ad-measuring 76,483 sq. mtrs.

The High Court vide its interim order dated 4th September, 2024 to balance the equities permitted the MIDC to take over the symbolic possession of the WRIT property at 11.00 am on 05-09-2024. The Petitioner i.e. Company would not be entering into the said property without the leave of the Court. Also, MIDC would not proceed to allot any portion of the said Land to any entity even under a Conditional transfer, without the permission of the Court. The Physical possession would formally remain with the petitioner until the further Orders.

The Company is of the opinion that MIDC order of cancellation of Lease deed would be set aside by the High Court. Further, in opinion of the management even in case of an adverse order (remote possibility) MIDC will have to pay back the amount as per applicable rate which will exceed the book value of the asset.

In view of the above there will be no adverse impact on the financial statements of the company.

49. Change in Object clause in Memorandum of Association (MOA)

Significant Accounting Policies

1. Corporate information

Morgan Ventures Limited is a Public Limited company incorporated under the provisions of Companies Act, 2013 (erstwhile Companies Act, 1956). The Company is a Non – Banking Financial Company registered with Reserve Bank of India. Equity Shares of the Company is listed at Bombay Stock Exchange.

2. Basis of preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act and the Master Direction ('the NBFC Master Directions') issued by RBI. The financial statements have been prepared on a going concern basis. The Company uses accrual basis of accounting except in case of significant uncertainties.

The financial statements are presented in INR and all values are rounded to the nearest thousand (INR 000), except when otherwise indicated.

2.1 Presentation of financial statements

The Company presents its Balance Sheet in order of liquidity.

The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

Critical accounting estimates and judgments

The preparation of the Company's financial statements requires Management to make use of estimates and judgments. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from those on which the Management's estimates are based. Accounting estimates and judgments are used in various line items in the financial statements for e.g.:

- Business model assessment
- Fair value of financial instruments
- Effective Interest Rate (EIR)
- Impairment on financial assets
- Provisions and other contingent liabilities
- Provision for tax expenses
- Residual value and useful life of property, plant and equipment

2.2 Material accounting policies.

This note provides a list of the material accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.2.1 Income

(i) Interest income

The Company recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Company recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets [as set out in note no. 2.2.4] regarded as 'stage 3', the Company recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

(ii) **Dividend income**
Dividend income on equity shares is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) **Other revenue from operations**
The Company recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

- **Net gain on fair value changes**
Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Company recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

- **Sale of services**
The Company, on de-recognition of financial assets where a right to service the derecognised financial assets for a fee is retained, recognises the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit or loss and, correspondingly creates a service asset in Balance Sheet. Any subsequent increase in the fair value of service assets is recognised as service income and any decrease is recognised as an expense in the period in which it occurs. The embedded interest component in the service asset is recognised as interest income in line with Ind AS 109 'Financial instruments'.

Other revenues on sale of services are recognised as per Ind AS 115 'Revenue From Contracts with Customers' as articulated above in 'other revenue from operations'.

(iv) **Taxes**
Incomes are recognised net of the Goods and Services Tax/Service Tax, wherever applicable.

2.2.2. Expenditures

(i) **Finance costs**

Borrowing costs on financial liabilities are recognised using the EIR [refer note no. 2.2.1].

(ii) **Fees and commission expenses**

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognised in the Statement of Profit and Loss on an accrual basis.

(iii) **Taxes**

Expenses are recognised net of the Goods and Services Tax, except where credit for the input tax is not statutorily permitted.

2.2.3. Cash and cash equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.2.4. Financial instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

All the financial instruments are recognised on the date when the Company becomes party to the contractual provisions of the financial instruments. For tradable securities, the Company recognises the financial instruments on settlement date.

(i) **Financial assets**

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

Initial measurement

All financial assets are recognised initially at fair value including transaction costs that are attributable to the acquisition of financial assets except in the case of financial assets recorded at FVTPL where the transaction costs are charged to profit or loss.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified into three categories:

(a) Debt instruments at amortised cost

The Company measures its financial assets at amortised cost if both the following conditions are met:

- The asset is held within a business model of collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

To make the SPPI assessment, the Company applies judgment and considers relevant factors such as the nature of portfolio and the period for which the interest rate is set.

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated financial assets going forward.

The business model of the Company for assets subsequently measured at amortised cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios in the books of the Company, it may sell these portfolios to banks and/or asset reconstruction companies.

After initial measurement, such financial assets are subsequently measured at amortised cost on effective interest rate (EIR). For further details, refer note no. 2.1.1. The expected credit loss (ECL) calculation for debt instruments at amortised cost is explained in subsequent notes in this section.

(b) Debt instruments at FVTPL

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the Balance Sheet at fair value. Interest and dividend incomes are recorded in interest income and dividend income, respectively according to the terms of the contract, or when the right to receive the same has been established. Gain and losses on changes in fair value of debt instruments are recognised on net basis through profit or loss. The Company's investments into mutual funds, debentures (trading portfolio) and certificate of deposits for trading and short term cash flow management have been classified under this category.

(c) Equity instruments at FVTPL

All equity investments in scope of Ind AS 109 'Financial Instruments' are measured at fair value through profit or loss.

Derecognition of Financial Assets

The Company derecognises a financial asset (or, where applicable, a part of a financial asset) when:

- The right to receive cash flows from the asset have expired; or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Company has transferred substantially all the risks and rewards of the asset. Once the asset is derecognised, the Company does not have any continuing involvement in the same.

The Company transfers its financial assets through the partial assignment route and accordingly derecognises the transferred portion as it neither has any continuing involvement in the same nor does it retain any control. If the Company retains the right to service the financial asset for a fee, it recognises either a servicing asset or a servicing liability for that servicing contract. A service liability in respect of a service is recognised at fair value if the fee to be received is not expected to compensate the Company adequately for performing the service. If the fees to be received is expected to be more than adequate compensation for the servicing, a service asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

On derecognition of a financial asset in its entirety, the difference between:

- the carrying amount (measured at the date of derecognition) and
- the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

Impairment of financial assets

ECL are recognised for financial assets held under amortised cost, debt instruments measured at FVOCI, and certain loan commitments.

Financial assets where no significant increase in credit risk has been observed are considered to be in 'stage 1' and for which a 12 month ECL is recognised. Financial assets that are considered to have significant increase in credit risk are considered to be in 'stage 2' and those which are in default or for which there is an objective evidence of impairment are considered to be in 'stage 3'. Lifetime ECL is recognised for stage 2 and stage 3 financial assets.

At initial recognition, allowance (or provision in the case of loan commitments) is required for ECL towards default events that are possible in the next 12 months, or less, where the remaining life is less than 12 months.

In the event of a significant increase in credit risk, allowance (or provision) is required for ECL towards all possible default events over the expected life of the financial instrument ('lifetime ECL').

Financial assets (and the related impairment loss allowances) are written off in full, when there is no realistic prospect of recovery.

Treatment of the different stages of financial assets and the methodology of determination of ECL

(a) Credit impaired (stage 3)

The Company recognises a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether:

- Contractual payments of either principal or interest are past due for more than 90 days;
- The loan is otherwise considered to be in default.

Restructured loans, where repayment terms are renegotiated as compared to the original contracted terms due to significant credit distress of the borrower, are classified as credit impaired. Such loans continue to be in stage 3 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period, typically 12 months— post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 or 2 and a fresh assessment of the risk of default be done for such loans. Interest income is recognised by applying the EIR to the net amortised cost amount i.e. gross carrying amount less ECL allowance.

Interest income is recognised by applying the EIR to the net amortised cost amount i.e. gross carrying amount less ECL allowance.

(b) Significant increase in credit risk (stage 2)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. However, unless identified at an earlier stage, 30 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 30 days past due are included in stage 2 for mortgage loans. The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioral trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioral trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

(c) Without significant increase in credit risk since initial recognition (stage 1)

ECL resulting from default events that are possible in the next 12 months are recognised for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioral trends witnessed for each homogenous portfolio using application/ behavioral score cards and other performance indicators, determined statistically.

(d) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro economic factors. The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

- Determination of PD is covered above for each stages of ECL.
- EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities.
- LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money.

(ii) **Financial liabilities**

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial assets to another entity, or a contract that may or will be settled in the entities own equity instruments. Few examples of financial liabilities are trade payables, debt securities and other borrowings and subordinated debts.

Initial measurement

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortised cost using the EIR [Refer note no. 2.1.1]. Any gains or losses arising on derecognition of liabilities are recognised in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired

(iii) **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.2.5 Taxes

(i) **Current tax**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) **Deferred tax**

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any, are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised either in OCI or in other equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.2.6. Inventories

Items of inventories are measured at lower of cost and net realizable value after providing for obsolescence, wherever considered necessary. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Cost of raw material, stores and spares, packing materials, trading and other products are determined on FIFO basis.

2.2.7. Property, plant and equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'.

Depreciation on property, plant and equipment

- (i) Depreciation is provided on a pro-rata basis for all tangible assets on straight line method over the useful life of assets, except on land.
- (ii) Useful lives of assets are determined as prescribed in Schedule II to the Companies Act, 2013.
- (iii) Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.
- (iv) An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the Statement of Profit and Loss when the asset is derecognised.
- (v) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.2.8. Impairment of non-financial assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

2.2.9. Leases

The Company's lease asset consists of leases for land. The Company assesses whether a contract contains a lease, at inception of a contract.

At the date of commencement of the lease, the Company recognises a right-to-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-to-use asset is initially recognised at cost which comprises of the initial amount of lease liability adjusted for lease payments made or prior to commencement date plus any direct cost i.e. lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment loss if any.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

Right-to-Use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term. Right to use assets are evaluated for recoverability whenever events or changes in the circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the incremental borrowing rates in the country of domicile of the leases. The Company has used single discount rate to a portfolio of leases with similar characteristics. Lease liabilities are remeasured with a corresponding adjustment to the related right to use asset if the Company changes its assessment as to whether it will exercise an extension or a termination option.

The Company has opted to present the Right to use as a part of the block of asset to which the lease pertains to and consequently, the Right to use asset has been presented as a part of property, plant and equipment under Leasehold land, whereas the lease liability is presented under Other Financial Liabilities in the Balance Sheet.

2.2.10. Provisions and contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.2.11. Foreign currency translation

The Company's financial statements are presented in Indian Rupee, which is also the Company's functional currency.

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are re-translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

Exchange differences

All exchange differences are accounted in the Statement of Profit and Loss.
